CDC Healthy Aging Research Network (CDC-HAN)

The mission of the CDC-HAN is to better understand the determinants of healthy aging in older adult populations; develop and evaluate programs and policies that promote healthy aging; and translate and disseminate evidence-based and sustainable public health programs and policies throughout the nation.

Key Partners

AARP
Administration on Aging
Alzheimer's Association
American Medical Association
Centers for Disease Control and Prevention

- * Division of Emergency and Environmental Health Services
- * Division of Nutrition, Physical Activity and Obesity
- * Prevention Research Centers Program (PRC)

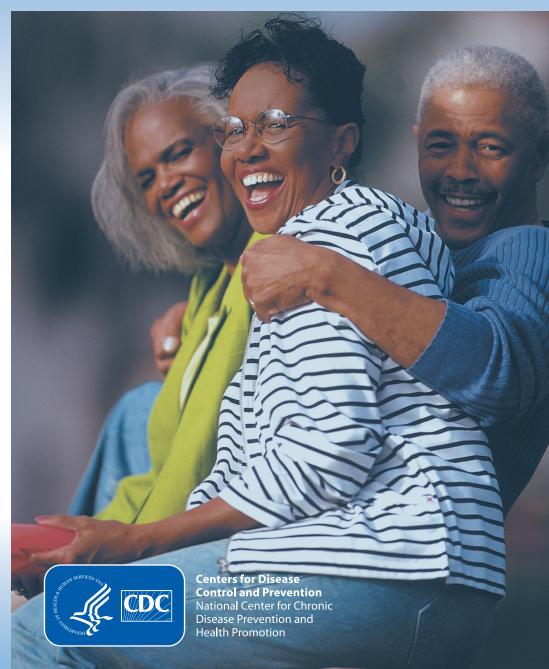

Easter Seals
Environmental Protection Agency
Health Foundation of South Florida
National Association of Chronic Disease Directors

RESEARCH

"The HAN is an incredibly talented team of scholars and community partners whose collaborative spirit and sense of purpose and innovation are making an important and long lasting impact at the intersection of public health and aging."

Lead of the CDC-HAN Coordinating Center

"The HAN is unique in its ability to integrate research on policy, community and programmatic interventions – thus ensuring the greatest benefit to all older adults, and especially those impacted by health disparities."
